Your profile is still in draft form. You must **create your profile** (/find-work/create-basic-profile/) and submit it for review before you can submit a proposal.

Details

Create accounting software for trucking company. It needs to have options to enter loads information, expenses, calculate payroll, prints reports etc. All this needs to calculate automatically, just enter the data by user.

There are screenshots attached of how it can look. It doesn't have to be designed exactly but with same functionality.

It must have option to be uploaded for online use in the future.

PLEASE DO NOT BID ONE PRICE AND LATER TRY TO INCREASE IT!!!

Your quote is final one for the entire job!
